WORK EXPERIENCE

Samsung Service Center

technician assistance

Des 2022 – Feb 2023

Assisted technicians in the inspection, diagnosis, maintenance, and repair of various electronic and home appliances, including air conditioners (AC), refrigerators, televisions, smartphones, and washing machines. Responsible for supporting troubleshooting activities, replacing defective components, performing routine maintenance, and ensuring that all repair procedures complied with Samsung service standards.

LG-Lucky Goldstar

technician assistance

march 2023 – may 2023

Supported the technical service team in handling the installation, inspection, testing, and servicing of various LG consumer electronics and home appliances, including air conditioners, refrigerators, televisions, smartphones, and washing machines. Assisted in identifying equipment malfunctions, performing functional tests, assembling and disassembling components, and verifying product performance after repairs.
